GAUGE:

1 ripple = 3 in. (7.5 cm), measured from peak to peak.
7 1/2 rows = about 4 in. (10 cm)

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

NOTES:

1. Hat and Cowl are worked in a ripple crochet pattern. The ripple pattern consists of alternating 3-st "peaks" and skipped st "valleys." Take care to keep the peaks and valleys of each rnd aligned. 3 sts are worked into the center st of peaks, and sts are skipped over valleys.
2. The ripple pattern is easy to do, but it's important to remember that you may need to work several rows before the ripple pattern becomes clear.
3. When working in ripple crochet, your piece may not lay flat until you've worked a few rows.
4. To change color, work last st of old color to last yarn over. Yarn over with new color and draw through all loops to complete st. Do not cut yarn. Carry color not in use up side edge of piece, twisting the yarns every RS row to prevent long loops.
