GAUGE:

8 sts + 15 rows = about 4 in. (10 cm) in Seed st.

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

NOTES:

1. Vest is worked in one piece beg at lower edge. Piece is divided at armholes and fronts and back worked separately to top of armholes. Fronts and back are again joined and collar worked in one piece to top edge.
2. A circular needle is used to accommodate the large number of sts. Work back and forth on circular

needle as if working on straight needles.

3. When you see 'work even' in the instructions, this means to continue on in the pattern st you have established without changing the st count by increasing, decreasing, or binding off.
