FINISHING

Note: When you sew the Side Panel to the Front and Back you'll be sewing the 19" (48.5 cm) edge of the Side Panel to the edge of the Front/Back shown on the schematic as measuring 18 1/2" (47 cm). But, if you lay your pieces out flat, you'll see that the Front/Back edge that you're sewing the Side Panel to is actually longer than 18 1/2" (47 cm) along the diagonal, so the pieces will fit together!

GAUGE:

18 sts + 24 rows = 4 in. (10 cm) in St st (k on RS, p on WS) with larger needles.

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

Making a Gauge Swatch

kfb (knit in front and back) Knit next st without removing it from left needle, then k through back of same st – 1 st increased.

skp Slip 1 as if to knit, knit 1, pass slip stitch over knit stitch – 1 st decreased.
