GAUGE:

14 hdc = about 4 in. (10 cm).

1 square = about 9 3/4 x 9 3/4 in. (25 x 25 cm).

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

Making a Gauge Swatch

NOTES:

1. 24 Squares are worked individually.
2. Each Square is worked 'Log Cabin' style, by beginning with a center square, then working 'logs' around the center.
3. Each Square uses 5 colors, beginning at the center with A. One side of each Square is worked with light colors and the other side with dark colors.
4. Squares are sewn tog following a diagram; be sure to turn Squares in the direction shown on diagram to make the 'arrow' effect.
5. To change yarn color, work last st of old color to last yarn over. Yarn over with new color and draw through all loops to complete st. Fasten off old color and proceed with new color.
6. If desired, work over yarn ends as you go to save having to weave them all in at the end.
