GAUGE:

8 sc = 4 in. (10 cm).

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

Making a Gauge Swatch

STITCH EXPLANATION:

sc2tog (sc 2 sts together) (Insert hook in next st and draw up a loop) twice, yarn over and draw through all 3 loops on hook – 1 st decreased.

NOTES:

1. Hat is worked in one piece in the round.
2. Earflaps and front flap are worked directly onto lower edge of Hat.
3. Materials are sufficient for both Hat and Scarf. If you plan to make both, work the Hat first so that you have sufficient A yarn for the Hat.

4. To change color, work last st of old color to last yarn over. Yarn over with new color and draw through all loops to complete st. Carry color not in use along side of piece until next needed.
