GAUGE:

Exact gauge is not essential to this project.

NOTES:

1. Five pieces are cut from plastic canvas then embroidered and sewn together to make the

Catchall.

2. Embroidery is worked in simple stitches with a single strand of yarn. Follow the stitch guide for how to work the stitches and follow the charts for stitch placement and yarn color.
3. As you finish a row of embroidery, weave the yarn tail through the stitches on the back of the plastic canvas to secure it before cutting it.
4. Ribbon is sewn to the inside of the Catchall, to hide the wrong side of the embroidery.

CATCHALL

Following diagram, cut 5 pieces from plastic canvas:

Base (cut 1) 9 x 7 in. (23 x 18 cm)

Long sides (cut 2) 9 in. x 1 3/4 in. (23 x 4 cm)

Short sides (cut 2) 7 x 1 3/4 in. (18 x 4 cm)

Cutting Diagram

Embroidery

Note: On all pieces, leave the first and last thread of each row on the canvas unworked and skip the threads at the top and lower edge.

Base

With A and following chart, embroider right slanting stitches over 2 intersections of threads all the way around the outside edge of the base.

Following chart, embroider cross stitch flowers and tent stitch stems.

With A and following chart, embroider tent stitch to completely fill in the background of the base.

Sides

With A and following chart, embroider right slanting stitches over 2 intersections of threads along the lower edge of each side. Following the appropriate chart, embroider flowers and stems on each side just as you did on the base.

With A and following chart, embroider tent stitch to completely fill in the background of each side.

FINISHING

Cut ribbon into 2 lengths each 9 1/2 in. (24 cm) for long sides and 2 lengths each 7 1/2 in. (19 cm) for short sides.

At both ends of each ribbon length, press 1/4 in. (6.5 mm) to the wrong side.

With sewing needle and thread, sew a ribbon length to wrong side of each side of Catchall. We found it

nearest to work small whipstitches around all 4 sides of each ribbon length.

Assembly

With B threaded into blunt needle, sew Catchall together as follows:

1. With overcast stitch, sew lower edge of each side to the base.
2. With cross stitches, sew ends of short and long sides together.

With B threaded into blunt needle, embroider overcast stitch along the top edge of Catchall.

Cross Stitch - This stitch is worked over an intersection of threads. Each stitch is worked completely before going on to the next. The direction of the top stitch may vary, but all stitches on a stitched piece should be made in the same direction.

Double Cross Stitch - This stitch is worked over two vertical and two horizontal threads. Each stitch is worked completely before going on to the next. The direction of the top stitch may vary, but all stitches on a stitched piece should be made in the same direction.

Overcast Stitch - This stitch is used to cover the edge of the canvas or to join pieces of canvas. You may need to go through the same hole more than once to get even coverage on the edge, especially at the corners.

Slanting Right - This stitch may cover more than one intersection of threads and slants to the right. It may be worked in rows, either horizontally or vertically.

Tent Stitch - This stitch covers one intersection of threads and can slant in either direction.
