GAUGE:

18 sts + 30 rows = about 4 in. (10 cm) over Block 1 pattern with 1 strand each of A and I held together.

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

Making a Gauge Swatch

NOTES:

1. Cowl is worked in one piece.
2. Stitches are picked up along edges of Triangles to work the next Triangle or Block. A diagram is provided to help you visualize the process.
3. Each Block and Triangle is worked with multiple strands of yarn held together. Read instructions carefully for the correct number of strands and colors used in each block. Wind F into 4 separate balls before beginning.
4. Carry color(s) not in use along side edge of piece unless instructed to cut. When instructed to cut color, leave ends long enough to weave in later.
