STITCH EXPLANATION:

TECHNIQUE EXPLANATION

Surface Slip Stitch

Work Surface Slip Stitch with the crochet hook included with loom.

1. Make a slip knot, but do not place it on hook.
2. Insert hook from right side to wrong side through woven fabric.
3. Place the slip knot on hook and draw loop to right side (keep beginning tail and working yarn on wrong side).
4. *Insert hook from right side to wrong side through fabric a short distance from last insertion location, yarn over, draw loop through fabric and through loop on hook (surface slip stitch made); repeat from * inserting hook, as desired, to create surface pattern.
5. To end a section of surface slip stitches. Remove hook from loop and take hook to wrong side. Insert hook from wrong side to right side, place loop on hook, draw loop through to wrong side. Cut yarn. Draw tail through final loop and pull tight.

NOTES:

The Wall Hanging is meant to inspire your creativity – you needn't follow the pattern exactly. Make as many embellishments (fringes, tassels) as you like in the yarns and colors of your choice.

Loom Configuration

Use the following pieces: (2) 36-hole pieces, (4) 12-hole pieces, (4) 6-hole pieces, (4) corner pieces.

Connect pieces to form a rectangle as follows: 36-hole piece > 6-hole piece > corner piece > 12-hole piece > 12-hole piece > 6-hole piece > corner piece > 6-hole piece > 36-hole piece > corner piece > 6-hole piece > 12-hole piece > 12-hole piece > corner piece.

Insert a small blue peg in every hole around each side of loom leaving 1 hole open in each corner. 47 small blue pegs along each long side of loom, 35 small blue pegs along each short side of loom – 164 small working pegs placed.

With loom in front of you, and short sides across top and bottom, insert 1 small grey peg in the upper right hand corner hole for the slip knot.

WALL HANGING

Follow loom manual instructions for general instructions for WEAVING.

Warp

Following loom manual instructions and with 1 strand of A, wrap the 35 warp pegs.

Weft

The weft color pattern is made by changing yarn colors.

NOTES

1. To change yarn color, cut the old color leaving a long yarn tail. Begin weaving with the new color, leaving a long yarn tail. These tails will be woven in later.
2. The weft is woven going over and under every warp strand - rather than every 2 strands as the loom manual instructs.
3. Before beginning, wind A, B and C into 2 separate balls each.

Weave the weft, changing color as follows:

With 2 strands of B, weave 6 rows.
With 2 strands of C, weave 4 rows.
With 1 strand of D, weave 5 rows.
With 2 strands of A, weave 3 rows.
With 2 strands of B, weave 6 rows.
With 1 strand of D, weave 3 rows.
With 2 strands of C, weave 4 rows.
With 2 strands of B, weave 3 rows.
With 1 strand of D, weave 4 rows.
With 2 strands of A, weave 3 rows.
With 2 strands of B, weave 6 rows.

FINISHING

Note: Surface Slip stitch is added after weaving is complete, but before removing the Hanging from the loom.

Surface Slip stitch

Follow instructions for Surface Slip stitch, using 1 strand of D or 2 strands of any of the other yarns. We worked Surface Slip stitch over sections of the Hanging that we thought needed extra color or dimension.

Remove Weaving From Loom

Beginning at the bottom left hand corner of loom, with 1 strand of A, place a slip knot on crochet hook, *insert hook under warp loop on peg, wrap yarn over hook and pull through warp loop and loop on hook, leaving warp loop in place on peg. Repeat from * all the way around the loom.

Cut A, leaving a long yarn tail. Carefully lift all the loops up and off the pegs.

Tassels

Cut 4-16 in. (10-40.5 cm) lengths of yarn as desired. For each tassel, hold 3, 4 or 6 lengths together. Fold lengths in half and with crochet hook, pull loop through woven piece. Pull yarn ends through loop and tighten, then trim yarn ends. Make as many tassels as you like in colors as desired.

Fringes

For each fringe, cut 4 strands of yarn, each about 20 in. (51 cm) long.

Hold strands together, then fold in half. With crochet hook included with loom, draw fold through lower edge of Hanging, forming a loop. Pull ends of fringe through this loop and pull to tighten.

Trim fringe ends as desired.

Assembly

Wrap dowel

Glue one end of yarn to one end of dowel. Wrap dowel with yarn, then glue remaining end of yarn to dowel.

Attach Hanging to dowel

Thread needle included with loom with yarn in color as desired. Knot end of yarn to top right corner of Hanging. Wrap yarn over dowel, then draw through top edge of Hanging. Working from right to left, continue to wrap yarn over dowel, then draw through top edge of Hanging, until Hanging is fully attached to dowel.

Knot yarn, trim ends.

Using needle provided with loom, weave yarn ends into the wrong side of the Hanging.

Hanger

Cut a 30 in. (76 cm) strand of yarn. Tie ends of strand to ends of dowel.
