GAUGE:

14 sts + 20 rows = about 4 in. (10 cm) in St st (k on RS, p on WS).

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

STITCH EXPLANATION:

PATTERN STITCH

K2, p2 Rib (worked over a multiple of 4 sts)

Row 1: *K2, p2; rep from * to end of row.

Row 2 (WS): K the knit sts and p the purl sts.

Rep Row 2 for K2, p2 Rib.

NOTES:

1. Back, Underpiece and 2 Belts are worked separately then sewn together.
2. Hunter, a gorgeous and very well-behaved retriever, was super comfortable wearing our size XL sweater, but dogs come in many shapes and sizes! To ensure a well-fitting sweater, compare your dog's measurements to those shown on the schematics. While knit is stretchy and will accommodate a range of sizes, you may want to adjust the pattern before beginning – perhaps making the Back of the sweater longer if your dog likes to be extra cozy or the neck bigger if your best friend is especially fluffy! Also, think about your dog's temperament – if she doesn't like anything snug pulled over her head, you might want to change to a larger needle to work the neck.
