GAUGE:

13 sts + 19 rows = about 4 in. (10 cm) in St st (k on RS, p on WS) using larger needles.

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

STITCH EXPLANATION:

k2tog (knit 2 stitches together) A decrease worked as follows: Work to the 2 sts to be worked together, insert the right needle into both sts at the same time and then knit them together.

M1 (make 1) An increase worked by lifting the horizontal strand of yarn lying between the needles and placing the strand onto the left needle. Work this new stitch through the back loop.

ssk (slip, slip, knit) A decrease worked as follows: Slip the next 2 sts as if to knit, one at a time, from the tip of the left needle to the tip of the right needle. Insert the left needle into the fronts of these 2 sts from the left to right, and knit them together.

NOTES:

1. Mittens are worked flat beginning at cuff and then seamed.
2. Smaller needles are used for the ribbed cuff of the Mittens to create a snug fit.
3. The hand portion of the Mitten is worked in St st (k on RS, p on WS), increasing sts to make the thumb gusset, and decreasing sts to shape the top of the Mitten.
4. The sts for the thumb are placed onto a holder, then the thumb is worked after you finish making the hand portion of the Mitten.
5. Mittens are worked at a tight gauge so that they are dense and long wearing.
