GAUGE

8 sts + 10 rows = about 4 in. (10 cm) in St st (k on RS, p on WS).

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

Making a Gauge Swatch

NOTES:

1. Vest is worked in 3 pieces, Back and 2 Fronts.
2. The hood is worked from stitches picked up around the neck edge of the Vest.
3. Armhole edgings are worked onto Back and Fronts. These edgings will later be turned to the inside of the Vest.
4. A circular needle is used to accommodate the large number of sts. Work back and forth on the circular needle as if working on straight needles.
5. End with a WS row means that the last row you work should be a WS row, and the next row that you are ready to work will be a RS row.
6. When you see '- 12 sts' in the instructions, this lets you know how many sts you will have at the end of that specific row.

Note: The following corrections have been incorporated into the pattern below. We are highlighting the corrections separately here so that if you have printed out an earlier version of the pattern you'll know what was changed.
