11 hdc + 8 rows = about 4 in. (10 cm).

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

Making a Gauge Swatch

1. 3 Panels are made separately, then sewn together following a diagram to make the Afghan.
2. Each Panel is worked back and forth in rows, changing yarn color to make blocks and strips of color.
3. To change yarn color, work last st of old color to last yarn over. Yarn over with new color and draw through all loops on hook to complete the st. Proceed with new color. Cut old color.
