GAUGE

20 sts + 28 rows = about 4 in. (10 cm) in St st (k on RS, p on WS).

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

STITCH EXPLANATION

M1 (make 1) An increase worked by lifting the horizontal strand lying between needles and placing it onto the left needle. Knit this new stitch through the back loop – 1 st increased.

NOTES

1. Back and Front are worked separately.

2. Both pieces are worked in intarsia colorwork, following written instructions. When working intarsia, do not carry yarn across WS of work between color changes, use a separate ball for each section of color. Twist yarns on WS to prevent holes.

3. The longer circular needle is used to accommodate the large number of sts. Work back and forth on circular needles as if working with straight needles.

4. When you see '0' reps in the instructions, this means that for your specific size, you need not rep anything, simply continue to the next section of the instructions.

Note:
The following corrections have been incorporated into the pattern below. We are highlighting the corrections separately here so that if you have printed out an earlier version of the pattern you'll know what was changed.
