#### GAUGE:

18 sts = about 4 in. (10 cm) in St st (k on RS, p on WS).

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

#### Making a Gauge Swatch

#### STITCH EXPLANATION:

##### **yo (yarn over)**

An increase that also creates a small decorative hole (eyelet) in the fabric, worked as follows:

1. Bring yarn to front, between the needles.
2. Take yarn to back, over the right needle. This creates the new st. You are now ready to proceed with the next st as instructed.

##### **PATTERN STITCH**

###### **Seed St (worked over an odd number of sts)**

**Row 1:** \*K1, p1; rep from \* to last st, k1.

**Row 2:** K the purl sts and p the knit sts.

Rep Row 2 for Seed st.

#### NOTES:

1. Shawl is worked back and forth in rows beg at center back neck.
2. When working Row 3, markers are placed to divide sts into 3 sections.

3. On right side rows, 2 yarn over increases are worked in each of the 3 sections to shape the Shawl.
4. The body sections are worked in St st (k on RS, p on WS), the Borders in Seed st.
5. A circular needle is used to accommodate the large number of sts. Work back and forth in rows on the circular needle as if working with straight needles.
6. A larger needle is used to bind off, to create a smooth edge on the Shawl.

## **SHAWL**

With circular needle, cast on 17 sts. Work back and forth in rows on circular needle as if working with straight needles.
