GAUGE:

8 hdc + 5 rows = about 4 in. (10 cm).

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

Making a Gauge Swatch

NOTES:

1. Poncho fronts are worked from lower edge up, then joined to work the back.
2. Yarn colors are changed following a chart.
3. When following chart, work RS rows from right to left and WS rows from left to right.
4. Do not carry unused color(s) across WS of work, use a separate ball or bobbin for each section of color.
5. Before you begin the back, wind F yarn into 2 separate balls.
6. To change yarn color, work last st of old color to last yarn over. Yarn over with new color and draw through all loops on hook to complete st. Proceed with new color. Fasten off old color.

Change to B in the last st of Row 4.

Continue in rows of hdc (same as Rows 2-4), changing color following chart (be careful to follow just the section marked for the Right Front) until all 40 rows of Right Front chart have been completed.
