Swatch should measure about 6 in. (15 cm) square.

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.
Making a Gauge Swatch

STITCH EXPLANATION:

rev sc (reverse single crochet) Single crochet worked from left to right (right to left, if left-handed). Insert hook into next stitch to the right (left), under loop on hook, and draw up a loop. Yarn over, draw through all loops on hook.
V-St (Dc, ch 1, dc) in same st.

NOTES:

1. Popover Top is worked in one piece from the cuff of one Sleeve up to Shoulder, across Front and

Back, down opposite Shoulder and Sleeve and ending at cuff edge of opposite Sleeve.
2. When you see "– 12 sts" in the instructions, this lets you know how many sts you will have at the end of that specific row.
