NOTES

1. Modular Knitting is way of giving a 'patchwork' effect to your knitting without picking up stitches or seaming. In the **Modular Scarf** pattern, you will work a series of triangles that are built atop one another.
2. Sl all sts as if to knit, with yarn held behind the work.

kfb (knit into front and back): Knit the next stitch without removing it from the left needle, then k through back of same st – 1 st increased.
