### **NOTES**

1. Afghan is worked in 2 pieces: Upper and Lower.
2. A circular needle is used for this design. Work back and forth in rows on the circular needle just as if working on straight needles.
3. The Lower piece of the Afghan is slightly larger than Upper piece.
4. The Upper and Lower pieces are sewn together, then borders are worked onto the outside edge of the Afghan.
5. The Afghan is worked in blocks of slip st patterns with multiple yarn colors. Refer to the layout diagram as you work!
6. Blocks 1 and 14 are worked separately; the remaining blocks all begin by picking up stitches along the edge of a previously-made block.
7. For blocks that begin with picked up stitches, the pick up row counts as the first row of the pattern st. Before beginning each block, read carefully through the instructions for that block so that you know which pattern rows to repeat.
8. You'll be slipping the first stitch of every row for a selvedge st. Always slip this stitch as if to purl.
9. We've included written instructions and a chart for each of the stitch patterns. When working from charts, read RS rows from right to left and WS rows from left to right.
10. When working the slip stitch patterns, all slip stitches should be slipped as if to purl.
11. With yarn in front (wyif) refers to the side of the work facing you as you work the row; with yarn in back (wyib) refers to the side of the work that is away from you as you work the row. To move yarn from front to back or back to front, bring yarn between needles. Take care not to wrap yarn over a needle, this could create an additional st.
12. When you see 'work in pattern as established' in the instructions, this means to work the next row of the pattern st, lining up sts as in previous rows.
