

***Free Craft Pattern***  
**Lion Brand® Rewind**  
**Knotted Plant Hanger**  
Pattern Number: L80218  
*Designed by Amy Gaines*

## **SKILL LEVEL – Beginner**

### **SIZE**

The Plant Hanger will be about 42 in. (106.5 cm) long

### **MATERIALS**

- Lion Brand® Rewind (Art. #523)
  - 195 Think Pink 1 ball

### **YOU'LL ALSO NEED**

One plastic ring, about 1 in. (2.5 cm) diameter

### **Make the Hanger**

Cut 18 strands of yarn, each about 160 in. (406.5 cm) long. Hold the strands together and fold in half.

Draw the folded strands through the plastic ring, then pull the ends of the strands through the folded loop and tighten — you'll have 36 strands coming from the ring.

Lay the piece onto a flat surface.

Divide the strands into 3 groups of 12 strands each.

Braid the strands together for about 4 in. (10 cm) below the ring.

Cut a short length of yarn and tie around the strands at the end of the braid, then trim the ends of the tie.

Divide the strands below the knot into 3 groups of 12 strands each. In one group, divide the 12 strands into 3 groups of 4 strands each. Braid these strands for about 3 in. (7.5 cm), then knot.

Repeat with each of the remaining 2 groups.

Divide the strands below each of the knots into 2 groups of 6 strands each. In one group, divide the 6 strands into 3 groups of 2 strands each. Braid these strands for about 12 in. (30.5 cm), then knot.

Repeat with each of the remaining 5 groups.

Beginning with the braid on the left hand side, and working towards the right, label the 6 braids A through F using sticky notes or adhesive labels.

Measure about 6 in. (15 cm) below the last knots and knot the braids together in pairs: B + C, A + F, D + E.

At the end of the last knots, knot the braids as follows: B + A, C + D, F + E.

Remove labels.

Coming from below the last knots, you'll have 3 groups of 12 strands each.

Separate each group into 3 groups of 4 strands each and braid for about 3 in. (7.5 cm).

When all 3 groups have been braided, knot all braids together.

Below the knot, separate the 36 strands into 3 groups of 12 strands each.

Divide each of these groups into 3 groups of 4 strands each and braid for about 5 in (12.5 cm), then knot.

Below each knot, separate the 12 strands into 3 groups of 6 strands each.

Divide the strands in each of these groups into 3 groups of 2 strands each.

Braid these groups for about 4 in. (10 cm).

Beginning with the braid on the left hand side, and working towards the right, label the 6 braids A through F.

Below the last knots,  
knot the braids as  
follows: B + C, D + E, A  
+ F.

Remove labels.

Separate the 12 strands under each of the last 3 knots into 3 groups of 4 strands each and braid for about 5 in. (12.5 cm).

When all 3 groups have been braided, knot all braids together. Trim the ends to about 6 in. (15 cm) under this knot.
