NOTES

1. Shawl is worked in one piece in sections that use different yarn colors and pattern sts.
2. To make neat edges, the first st and last st of every row are knit for selvedge sts.
3. When the pattern tells you to slip a st, slip as if to purl.
4. With yarn in front (wyif) refers to the side of the work facing you as you work the row; with yarn in back (wyib) refers to the side of the work that is away from you as you work the row. To move yarn from front to back or back to front, bring yarn between needles. Take care not to wrap yarn over a needle, this could create an additional st.
5. The pattern sts can be worked by following the written instructions or reading the charts. Read RS rows of charts from right to left and WS rows from left to right.
