The stainless steel removable drip pans conveniently slide out the front for easy access and cleaning.

VERSATILE/EASIER INSTALLATIONS

In addition to the built-in trim, the Built-in 700 Series also comes with longer daisy-chain electrical wiring to prevent restrictions in installation which could interfere with your dream outdoor kitchen design.

CONVERTIBLE VALVES

A must-have for installing a built-in outdoor kitchen. Whether you're building it or installing for your own home, convertible valves mean you can change fuel types if you decide to install natural gas, or for resale value of your home you won't sacrifice the quality of your investment if a future buyer wants to install natural gas.
