

## Blood Proof Washable Gown Short Sleeve

**MX1051**

These full front coverage gowns are made from a unique blood proof fabric developed for use in the dental sector. You pull the gown on from the front and close it with 2 fabric ties at the back which allows for flexibility across shoulders due to the contoured back shaping.

With a short sleeved design that allows for dexterity and hygiene during surgery, this reusable gown is lightweight and fluid-resistant, giving you the protection you need. Suitable for use in the Dental, Veterinarian and Medical professions with highly durable, anti-static, non-linting fabric and available in two professional colours. This gown is constructed from a medical grade fabric which is commercially launderable and repels blood.

- Excellent filtration efficiency
- Durable for many washes
- Tie closures at mid-back and neck
- Anti-static and non-linting.
- Provides lightweight comfort
- Commercially launderable
- Contoured back aperture with 2 fabric ties: 1 tie at neck, 1 tie at waist level
- Unisex fit
- Popular with medial sector including Dental and Vet clinics
