    #171 Fresh Mint 2 balls (D)

    #106 Sky Blue 2 balls (E)

    #146 Lilac 2 balls (F)

BLANKET

Set up

Pull out one end of yarn color A and count out 55 loops. You'll be working on just 53 loops, the other 2 loops are the beginning yarn tail and will be secured later. Lay this length of 55 loops onto a flat surface, with the end of the yarn on your left hand side.

Check to be sure that all loops are facing upwards and that loops aren't twisted.

Make your Blanket

Now you'll be working back and forth in rows across the loops.

Tip

This yarn is designed so that the loops stay in place – you can set the Blanket down at any point and the loops won't come undone!

The yarn that's coming from the yarn ball is called the working yarn.

Hold the working yarn behind the base of 55 loops.

With your thumb and index finger, reach through the first loop (55th loop from the end) on the beginning of your Blanket.

Pull the next loop from the working yarn through the first loop. Working across the length of loops from right to left, continue to pull the next loop of working yarn through the next loop on the Blanket until you've pulled up 53 loops – and have 2 loops remaining for the yarn end.

You'll work the second row in the same way as the first row, but working from left to right to pull up a loop of working yarn in each of the 53 loops on the Blanket.

For the third row, continue pulling up loops of the working yarn, this time working from right to left.

Continue to pull up loops back and forth in rows across the 53 loops until you don't have enough of yarn A to do another row AND you're at the end of a row.

If needed, trim the yarn tail of yarn A to about 2-3 loops, and leave this yarn tail hanging.

Change to working with yarn B.

Leave 2-3 loops of yarn B hanging, then with B as the working yarn, continue to work back and forth in rows across the 53 loops of the Blanket.

When you don't have enough of yarn B to do another row AND you're at the end of a row, change to yarn C.

Continue with yarn C just as you did with yarn B.

Stop working with yarn C when you don't have enough of yarn C to do another row AND you're at the end of a row.

When you don't have enough of yarn C to do another row AND you're at the end of a row, change to yarn D.

Continue with yarn D just as you did with yarn C.

Stop working with yarn D when you don't have enough of yarn D to do another row AND you're at the end of a row.

When you don't have enough of yarn D to do another row AND you're at the end of a row, change to yarn E.

Continue with yarn E just as you did with yarn D.

Stop working with yarn E when you don't have enough of yarn E to do another row AND you're at the end of a row.

When you don't have enough of yarn E to do another row AND you're at the end of a row, change to yarn F.

Continue with yarn F just as you did with yarn E.

Stop working with yarn F when you don't have enough of yarn F to do another row AND you're at the end of a row.

Finish your Blanket

Now you'll need to finish off your loops. Drop the working yarn.

Working in the same direction as the last row you made, pull the second loop through the first; pull the third loop through the second; pull the fourth through the third – and so on across to the end of the row.

Now you're back at the side with the working yarn. Carefully snip the loops off the working yarn tail. Pull working yarn through the last loop and knot.

Carefully snip the remaining loops from each yarn tail. Just snip the loops off, don't cut through the yarn! Pull each of the trimmed tails through the loops of the Mat to secure them.

Every effort has been made to produce accurate and complete instructions. We cannot be responsible for variance of individual knitters or crocheters, human error, or typographical mistakes.
