TECHNIQUE EXPLANATION

Corner-to-Corner (C2C) The Corner-to-Corner (C2C) technique uses different color crochet squares to form a graphic design. Each crochet square is created by working (sl st, ch 3, 3 dc) in an indicated space.

- The squares are arranged diagonally in rows, beginning in one corner of the piece. The first square (Row 1) forms a lower corner. The next 2 squares (Row 2) are worked diagonally over Row 1. The 3 squares of Row 3 are then worked diagonally over Row 2, and so on.
- Color changes for C2C designs are provided in a Chart. Each square in the Chart represents a (sl st, ch 3, 3 dc) crochet square. The rows of the Chart are read diagonally, back and forth.

NOTES

1. Scarf is worked in C2C from lower right corner upwards, changing yarn color following Chart. In this design, Row 1 of Chart is read diagonally from left to right, Row 2 is read diagonally from right to left, and so on.
2. This C2C project is shaped by carefully adding or omitting squares at the beginning or ends of rows. In this design, 1 square is increased in each of the first 15 rows. The number of squares is then kept even at 15 squares per row until a total of 120 rows have been worked. Finally, 1 square is decreased in each of the last 15 rows.
3. To change yarn color, work last st of old color to last yarn over. Yarn over with new color and draw through all loops on hook to complete stitch. Proceed with new color. You can either cut the old color leaving a long tail to weave in later or leave it hanging on WS. Carefully pull old color up to your hook when needed in next row. Wind yarn into separate small balls or onto bobbins so that you can have one small ball of yarn for each section of color and will not need to carry yarn too far along WS piece.
4. For those who find a visual helpful, we have provided a stitch diagram.
