

World's most trusted child safety gate latches

Side Pull

Vertical Pull

Top Pull

Child Resistant Knob

Newly designed shape is more ergonomic, but also more child resistant than ever

Visible Lock Indicator

"Red dot" indicator shows, at a glance, whether the latch is locked or unlocked

Rekeyable Security Lock

6-pin lock cylinder can be rekeyed (by a locksmith) to match existing doors etc.

Built-in Post Cap Spacing

No need for separate post-cap spacers

T-Track Innovation

Unique, solid rear mounting track gives superior fixing strength and easy vertical adjustment

Product Traceability

Superior, quality manufacturing and responsible tracking through registered product numbering

Improved Drainage

Sloping feature channels water away from latch and striker body

Alignment Indicators

Help identify when vertical or horizontal adjustment is required

Safety Stop

The original safety stop prevents children from pushing the gate down to unlatch

Side Pull 'Lockable'

D[®] MAGNALatch[®] SIDE PULL

The original, versatile magnetic latch

- Small & unobtrusive - easy to install
- Lockable and non-lockable models
- Model for round-post-to-glass gates
- Vertical & horizontal adjustment
- New, snap-fit dress caps - no visible fasteners
- Will not rust or corrode
