# Apollo

SOFAS

*Antonio Citterio*

## Description

Apollo is a new range of upholstered furniture designed for Maxalto by Antonio Citterio. The collection is composed of three sofa types, united by pleasantly curved but rigorous lines, which distinguishes each element and creates a harmony between curves and linear forms. In its fluid shape, where the corners seem designed to accommodate the body, geometry becomes comfort with Apollo. At first glance, the upholstery of the seat and cushions, the backrest height, the lack of feet, and the generous seat depth are the elements that make Apollo welcoming and appealing. The fabric covers are embellished with a raised stitch detail, while for the leather covers sport a sophisticated envelope stitching. With its clear, easy-to-understand shape Apollo stands out.

# Technical information

### Back internal frame
tubular steel and steel profiles

### Seat internal frame
solid wood

### Back internal frame upholstery
Bayfit® flexible cold shaped polyurethane foam, polyester fibre

### Seat internal frame upholstery
shaped polyurethane of different density, polyester fibre cover

### Seat cushion upholstery
shaped polyurethane of different density, sterilized down, polyester fibre cover

### Back cushion upholstery
shaped polyurethane, sterilized down

### Lower edge
aluminium extrusions

### Ferrules
plastic material
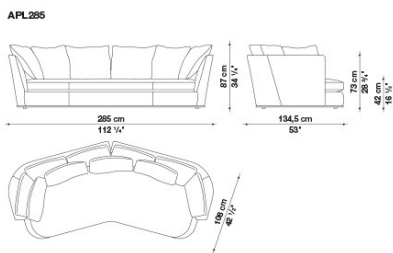

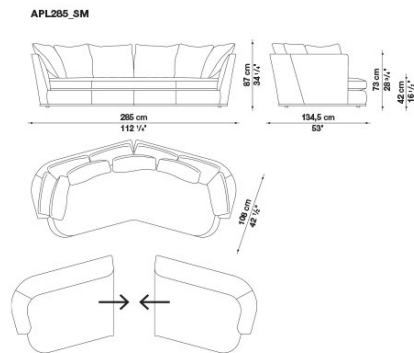

### Cover
fabric (raised stitching) or leather (envelope stitching)
