

CHANGE GRENACHE ROSÉ

IGP Pays d'Oc

Act for planet

Winegrower's note

Gérard Bertrand is dedicated to protecting biodiversity, vineyards and landscapes. He invites you to discover Change, a range of wines from vineyards converted to organic farming. Choosing Change is a socially conscious act, supporting committed winemakers. It is also a guarantee of intense, fruit-driven wines, with a generous palate.

Winemaker's note

The grapes are pressed in a pneumatic press as soon as they arrive at the cellar, without any prior maceration. They are then left to settle cold, followed by low-temperature alcoholic fermentation in stainless steel vats to extract the fruit aromas as much as possible. This wine is aged in thermo-regulated stainless-steel vats before being early bottled in order to preserve all the freshness of the wine.

Tasting notes

The robe has a shiny and soft salmon-pink color.

Red fruits on the nose, such as raspberry, cherry, strawberry and pomegranate.

The mouth is fresh and plain with notes of red fruits and white flowers.

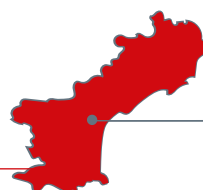

To enjoy at 12-13°C as an aperitif or with various tapas. Generous wine that goes perfectly with spicy dishes and Asian dishes
