

Standert®

Kreissäge RS Fact Sheet

Fast is still Fun.

We really like the approach of taking it easy, shifting down a gear, deep breaths, observing and feeling nature around us.

But to be honest when we are on our race bikes we just want that nature thing flying by left and right. Deep breaths should come from our hearts pumping at 190bpm and shifting down a gear should only be in preparation to drop the hammer.

The Kreissäge RS is made to go fast, brake late, hit the apex, accelerate out of turns and sprint for whatever you are sprinting for.

Agile, direct, responsive, safe. Control is fast.

...Meow

Carbon Fork

Full monocoque carbon fork for lightweight and precise steering.

Flat mount for 160mm rotor max. and 12mm thru axle.

27.2mm Seatpost

Dropouts & Cables

12x142 Thru Axle Dropout with integrated flat mount caliper mounts. Thru Axles are included in the frameset. Internal Di2 and external mechanical shift cable routing for best performance and simple maintenance.

First ThreadFit T47 Bottom Bracket

The ThreadFit T47 standard provides the security and reliability of a threaded bottom bracket with the stiffness and power transfer gains of a PressFit 30 bottom bracket shell.

Compatible with Shimano, Sram, Campagnolo and many more.

Complete Bike

The racehorse of X-Range gearing, the Red XG-1290 Cassette is specifically designed for wireless electronic shifting, and the one-piece design offers you the best in weight savings.

More useful gearing and better shifting across all configurations. Designed with Quarq DZero power measurement integrated into the crankset.

Specs

Wheelset	DT Swiss PR 1400 (21mm Deep)
Saddle	Fizik Vento Argo R1 140mm
Tires	Vittoria Corsa 25c Tan Wall
Bar Tape	Fizik Vento Tacky White
Groupset	Sram Force eTap AXS (4835 10-28)
Shift / Brake Levers	Sram Force eTap AXS
Brake Front	Sram Force eTap AXS 160mm Rotor
Brake Rear	Sram Force eTap AXS 140mm Rotor
Deraillieur Front / Rear	Sram Force eTap AXS
Crankset	Sram Force eTap AXS 4835
Cassette	Sram Force AXS 1028
Chain	Sram Force AXS Flattop
Weight	8kg
Stem	Deda Vinci POB
Handlebar	Deda Superzero Carbon
Seatpost	Zipp Service Course SL Carbon
Max. Tire Clearance	700x30C
Recom. max. rider weight	95kg

Complete Bike

DT Swiss Wheelset

28 Deep | 21 Wide | 1443 Gramm
Top end aluminium wheelset. Wide, asymmetric and lightweight rims make for an outstanding stiffness to weight ratio. With the high-end 240s based hubs this is the perfect fit for every performance road bike.

Vittoria Corsa 28C

Four compounds in the tread (4C) for increased wear life, lower resistance and improved grip on the sides. Premium cotton casing conforms closer to the road's surface, providing a smoother ride and better grip.

Carbon for Comfort

The 27.2mm Zipp carbon seatpost and Fizik Vento carbon saddle bring comfort to the aluminium frame.

Deda Cockpit

The Superzero handlebar ideally matches the modern philosophy of racing bikes designed to be aero apart from being light and stiff. This technical approach is evident on the bar aero profile and cross section that have been designed to minimize the drag and provide an ergonomic grip for any riding style at the same time.

Body Height (cm)		Inseam (cm)		Frame Size
150	163	76	82	48 PC™
158	170	77	83	50 PC™
166	177	78	84	52 PC™
170	180	80	86	54
175	185	82	88	56
182	192	84	90	58
188	198	85	91	60
regular fit	race fit	regular fit	race fit	

Take these numbers as a good reference. Fit is a very individual thing though. Every body is different and many parameters go into a perfect fit. If you already have a bike that fits you well, comparing geometries and specs will mostly yield a good result.

We're always happy to help! Especially when you're just starting out and are quite uncertain which way to go. Call us, or go to standert.de/pages/sizing-guide for in depth fit advice.
