

50-6121-LFP2

Medium weight cut resistant foam nitrile palm coated glove with thumb and padded palm reinforcement

The 50-6121 is part of an innovative new family of hand protection designed to meet the new standards in cut protection in a powerful high value solution.

Providing ANSI level A6 cut resistance and high levels of abrasion resistance the glove will perform in applications requiring durability and exposure to a broad range of high cut hazards. The breathable, sandy foam nitrile palm coating is designed to deliver excellent grip, particularly in dry or oily conditions while still allowing the hand to breathe.

With LFP2 Leather + Padding palm USA modification.
