# Journey East

Decorate with patterns that highlight the rich design history of Asia - from Mughal-inspired prints to the ikat textiles of Uzbekistan

### A TRUE GEM

Inspired by traditional textiles of Central Asia, this Lhasa embroidered linen fabric dazzles with its contrasting colours and vivid texture. One of the beautiful designs from Pierre Frey's Soleil Levant collection which pays homage to Asian art and craftsmanship, the design would make for striking drapes or a decorative wall hanging behind a bed.  
Lhasa fabric in Carmin, £396m and central fabric panel in Shirto in Yuzu, £322m, Pierre Frey

### PASSION FOR PAISLEY

Paisley is characterised by its teardrop motifs, thought to derive from the Persian 'buto' symbol. This season, de Le Cuona presents a fresh take on the iconic pattern with its exquisite Elizabeth Paisley. The fabric combines 10 shades of delicate wool yarn and fine cotton to achieve exceptional depth and movement.  
Elizabeth Paisley fabric in Bluebird, £240m, de Le Cuona

### EAST MEETS WEST

A celebration of ornament from across continents, the new Persane fabric from Manuel Canovas is a fusion of a traditional ikat pattern with classical European elements. The lightweight cotton fabric is the perfect choice for bringing rhythmic colour and pattern to drapes or upholstery.  
Persane cotton fabric in Myrtille, £110m, Manuel Canovas
