Quiet opulence

Stunning in all light levels, Aria is a luxurious, ultra-fine blend of wool and silk with a paisley design. Woven in Italy, the patterned jacquard fabric comes in three delicate colourways, all of which pair beautifully with organic materials.

Artisan appeal

Inspired by basket weave, this Noga linen from Etamine has a nuanced, slubby texture, which results in a beautiful interplay of light and shade. With a soft, tumbled and washed finish, it would work wonderfully with weathered textures as part of a cool, laid-back scheme.

DINING ROOM

A washed grey oak table adds a French feel. 'Even though it is a formal space, we still wanted it to feel liveable,' says Katie. A free-standing bar with cooling drawers was incorporated on one side of the room.
