TROPICAL PUNCH

With its fresh wallpaper collection, **PARROT CAYE**, luxury furniture giant **BAKER** establishes itself as a complete resource for all things interior design, including wallpaper and fabrics. Designed by Baker's in-house design team, the tropical-tinted line of wallpaper features lush silhouettes of Kentia palm fronds set against a fresh backdrop and is available in eight colorways, including Harbor White, Avocado Toast, Setting Gold, Coral and more. Available to the trade at Baker Furniture, ADAC, (404) 266-0501; bakerfurniture.com

SEASIDE CHIC

Based in the London borough of Royal Windsor, Bernie de Le Cuona's eponymous brand of textiles enjoys a well-earned international legacy. And **DE LE CUONA**'s latest collection, the predictably superb Ethereal Elements, pays tribute to the organic beauty of exotic shores with three stylish subsets: Seahorse, a loopy linen-poly blend made from ruffly boucle yarns (available in double width); Turtle Island, a 100 percent linen with a stone-like look; and Shore, a dense linen blended with four other fibers for a subtle linear effect. Available to the trade through Jerry Pair, ADAC, (404) 261-6337; jerrypair.com

Slimming Silhouettes

MADELINE STUART's eponymous collection recently reimagined its four-poster bed with the Nimes half-poster bed, giving it a more slimming, subtle profile but maintaining the same artisan, hand-forged details, such as the iron finials and textured iron finishing. Available to the trade at Jerry Pair, ADAC, (404) 261-6337; madelinestuart.com/collection; jerrypair.com
