CURATED ENSEMBLE

Accessories maketh the outfit... and indeed the room. An ethos encapsulated in the new collections of decorative accents by de Le Cuona. Expanding on the luxury craftsmanship delivered in its existing fine offering of textiles, the range includes vases and occasional furniture alongside throws and cushions with beautiful embellished details. The five curated collections imbue a strong sense of character through considered combinations of textures and colours. Reef ceramic vases, from £205; stool, throws and cushions from Documentary Filmmakers collection, all de Le Cuona
