Product description:

A Line Storage Bench is an updated take on the classic storage bench – where functionality meets clean form. A solid and versatile piece with slightly reduced dimensions and minimalist characteristics, offering generous storage space. The lid is lifted with a small leather handle and is held in place by the construction when in use.

The angled cut of the legs gives the bench a subtle lifted appearance, lending the overall design a sense of solidity and robustness, while maintaining a refined and stylish expression. A versatile piece that works equally well as a stand-alone item in a hallway, bedroom, or any seating area – enhancing the practical spaces of the home while ensuring ease of use and storage. Since its launch in 2019, the A Line Storage Bench has been a rethinking of a familiar design paradigm, reflecting Jonas Herman's long-standing admiration for the functionalist traditions of American Shaker furniture.

Designer's thoughts:

This short storage bench is designed with the aim to create a small piece of furniture which is lifted from the floor. Further to that, it should be easy to use and fit in many different environments." – Herman Studio
