*Introducing Grey Galaxy marble
to the Plinth Collection.*

Audo unveils the latest evolution of the Plinth Collection—an exploration of form, function and material that now includes Grey Galaxy marble to redefine the plinth as a sculptural object that transcends its utilitarian origins.

The Plinth Collection has always been about more than function. It's about elevation—of materials, of objects, of spaces and of the ordinary moments that take place around them. Evoking the beauty of the cosmos, the new and finely honed Grey Galaxy marble is characterised by its moody grey base, animated by unique flecks and swirling veins of soft white and silvery grey. This striking material contrasts with the collection's clean architectural lines to create an interplay of texture and geometry that is both modern and quietly monumental.

Designed to serve as sculptural focal points or subtle platforms that highlight the curated landscapes of everyday life, the Plinth Collection is a testament to Audo Copenhagen's commitment to material authenticity and enduring design. In Grey Galaxy marble, it finds an expression that is both bold and inherently timeless.

Grey Galaxy marble is available on the Plinth Cubic, Plinth Tall and Plinth Low. As each product is made from natural materials, every piece is unique and may display surface variations.

About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialises in residential architecture, commercial interiors, industrial design, photography and art direction. The name reflects the studio's emphasis on drawing inspiration from norms and traditions in architecture and design—particularly the Scandinavian design ideology of timeless aesthetics and natural materials and Modernist ideas of restraint and refinement.

Guided by these principles, Norm Architects creates designs that unite materials and craftsmanship while embodying beauty, history and, most importantly, timeless simplicity—with nothing more to add or subtract. A longstanding collaborator with Audo, Norm Architects helps to drive the evolution of the brand and its products with the same fundamental ethos that guides its own creative direction: a simplicity that carries bigger ideas.
