**The Power Sonic PDC series of deep cycle AGM batteries provide enhanced performance and excellent reliability in long duration cycling applications.**

The oversized negative plates and specialized paste formulation ensures constant power for longer periods of time without shortening the life of the battery. Purpose built for applications that require regular and consistent cycling (charge and discharge), the PDC series offer an exceptionally long cycle life compared to general purpose AGM batteries making them ideal for mobility, medical, golf and renewable energy applications.

Power Sonic's cutting-edge manufacturing and process control combined with meticulous quality assurance procedures guarantee consistent and dependable performance.

### FEATURES

- Deep cycle AGM battery
- Absorbent Glass Mat (AGM) technology for superior performance
- Specialized paste formulation for true longer life deep cycle performance
- Special additives in the paste ensure excellent performance in deep discharge situations
- Power/volume ratio yielding unrivalled energy density
- Proven valve regulated technology that guarantees safe operation without maintenance
- Rugged impact resistant ABS case and cover

Sealed Performance Batteries
