

Instructions

This form is completed by the consenting parent and the lead maternity carer (LMC) after the birth immunisations.

- The white LMC page is to remain with the maternity notes.
- Fax, or send a photocopy, of the white page to the local Aotearoa Immunisation Register (AIR) Administrator (details overleaf).
- Send the yellow page to the Medical Officer of Health (details below).
- Send the green page to the patient's GP.

Consent for hepatitis B vaccine and hepatitis B immunoglobulin
and notification to the Medical Officer of Health

Hepatitis B

Mother: Surname NHI no: DOB | |
First Name/s

Baby: Surname NHI no: DOB | |
First Name/s Male Female

Address:

Phone: () **Place of Birth:**

Alternative Address:

Phone: ()

GP: Name/Surgery:

Address:

Phone: ()

Lead Maternity Carer:

Ethnic group: (Tick all that apply) NZ European Māori Tongan Chinese Samoan Niuean
 Cook Islands Māori Indian Other (please specify)

Mother's hepatitis B surface antigen status:
 Positive Unknown (If the serology is unknown it should be checked urgently)

Parent consent:
I understand that the course of four doses of hepatitis B vaccine and a single dose of hepatitis B immunoglobulin will protect most children from hepatitis B if their mother is a carrier of the hepatitis B antigen. I have been given information and have had any questions answered to my satisfaction.
I consent / do not consent (delete which is not applicable) to the above child receiving the hepatitis B vaccine and hepatitis B immunoglobulin at birth.
Parent/Guardian: Signature Name Date | |

I consent / do not consent (delete which is not applicable) to the above child receiving three further doses of hepatitis B vaccine at age:
6 weeks: Parent/Guardian Signature Name Date | |
3 months: Parent/Guardian Signature Name Date | |
5 months: Parent/Guardian Signature Name Date | |

I consent / do not consent (delete which is not applicable) to this form being given to the Medical Officer of Health, the AIR Administrator and the patient's GP to ensure that the above child receives follow-up and the full course of these vaccines.
Parent / Guardian: Signature Name Date | |

At 9 months of age it is important to check that the above child is immune to (protected against) hepatitis B with a blood test.
Do you agree to the Public Health Service contacting you about this? YES NO

This information will be recorded on the Aotearoa Immunisation Register. Please ask your doctor or nurse for more information on the AIR.

Protocols and record of Hepatitis B vaccines given:

	Vaccine	Dose	Date given			Batch Number	Expiry Date		Body Site (see below)	Vaccinator Print Name and ID (NZMC/NZNC APC) clearly	Vaccinator Signature
			Day	Month	Year		Month	Year			
Birth	Hep B	10mcg									
	HBIG	100 IU									
6 weeks	DTaP-IPV-Hep B/Hib	Usual schedule									
3 months	DTaP-IPV-Hep B/Hib	Usual schedule									
5 months	DTaP-IPV-Hep B/Hib	Usual schedule									

Body Site Codes: RVL – Right Vastus Lateralis (outer thigh); LVL – Left Vastus Lateralis (outer thigh); RD – right deltoid (upper arm); LD – left deltoid (upper arm); O – Other.
Key: Hep B = hepatitis B vaccine; HBIG = hepatitis B immunoglobulin; DTaP-IPV-Hep B/Hib = diphtheria, tetanus, acellular pertussis, inactivated polio vaccine, hepatitis B, haemophilus influenzae type b vaccine

- Lead maternity carer to complete after the birth immunisations.
- White copy to remain with maternity notes.
 - Fax/post a copy of the white page to the local AIR Administrator.
 - Yellow copy to local Medical Officer of Health.
 - Green copy to patient's GP.
