

Sands is a parent-run nationwide group supporting families who have experienced the death of a baby. Most of our members are also bereaved parents. We offer empathy and understanding. We promote awareness, information and support for those dealing with the death of a baby in pregnancy, birth or as a newborn, or due to medical termination or other forms of reproductive loss. Some of our groups run regular support groups, offer telephone support, make personal visits and have resources available for you to borrow. In some hospitals, we provide Moses baskets and clothing for babies. We extend our sincere sympathy to you at this very sad time and invite you to make contact with us if you wish.

For local and national contact details or to request this resource, visit our website on
