DIMENSIONS

COMMANDER 200W

Commander light bars have a strong yet lightweight die-cast aluminum housing with an IP67 waterproof rating, making them fit for even the most extreme environments. These dual row light bars have a combo beam pattern which illuminates a 90-degree angle with an 8-degree central beam providing a broad and clear light. The superior optical PC lens material enhances the beam intensity by 50% without using additional current draw from the battery, making the Commanders some of the brightest and most efficient lights on the market.
