

NEXT EVOLUTION SURFACES.

NEVO BY BORD PRODUCTS.

WELCOME TO NEVO.

Australia's most hyperrealistic woodgrain surfaces by natural veneer experts Bord Products.

ABOUT.

Unparalleled timber realism, virtually indistinguishable from natural veneer. Without the cost, complexity, or maintenance.

Designed and manufactured by Australian natural veneer experts Bord Products, with premium surface technology from Saitama, Japan.

Durable and sustainable, NEVO's precision-matched grains deliver flawless colour consistency across every sheet, with invisible antimicrobial protection and resistance to UV, scratches, stains, and water.

Supplied pre-finished and ready to fabricate on E0 MDF, MR MDF & FR MDF (natural or black), Birch Plywood, or 1mm Laminate, with matching ABS edge banding.

From intimate sanctuaries to multi-stage developments, NEVO is the one surface for every space.

FEATURES.

Virtually indistinguishable from natural veneer — flawless consistency and superior durability, without the cost, complexity, or maintenance of real timber.

- ___ Pre-Finished & Ready to Fabricate
- ___ Precision-Matched 3D Grains
- ___ Flawless Colour Consistency
- ___ Finely Textured 3D Embossing
- ___ Durable & Scratch-Resistant
- ___ Chemical, Stain & Water Resistant
- ___ Invisible Antimicrobial Protection
- ___ UV-Stable (tested to 2,000 hours)
- ___ Fire Rated (Group 3)
- ___ Available on E0 MDF, MR MDF & FR MDF (natural or black), Plywood, or 1mm Laminate
- ___ Matching ABS Edge Banding
- ___ Pressed in Australia
- ___ Fast Lead Times
- ___ Recyclable
- ___ Ultra-Low VOC
- ___ PEFC-Certified (on request)
- ___ Free from PVC, BPA, Formaldehyde, & Endocrine-Disrupting Chemicals

APPLICATIONS.

From intimate sanctuaries to multi-stage developments — one surface for every space.

- ___ Residential
Kitchen, bathroom, laundry, wardrobes, office, furniture, cabinetry, joinery, and wall and ceiling panelling.
- ___ Commercial
Receptions, foyers, boardrooms, storage, lockers, cabinetry, joinery, restrooms, furniture, and wall and ceiling panelling.
- ___ Hospitality
Counter fronts, furniture, cabinetry, joinery, wall and ceiling panelling, acoustic panelling, and restrooms.
- ___ Hotels
Bedrooms, furniture, cabinetry, joinery, storage, counters, and wall and ceiling panelling.

±Suitable for vertical and low-wear horizontal applications

THE COLLECTION.

NEVOGRAIN. *Hyperreal*

NEVOGRAIN. *Hyperreal*

NEVOGRAIN. Hyperreal replicates the warmth and depth of Australia's most popular timber veneers.

AUST EUCALYPT

Replicates Tasmanian Oak and Plantation Oak Quarter Cut Veneer

LINEA OAK

Replicates American Oak and European Oak Quarter Cut Veneer

WARM OAK

Replicates American Oak and European Oak Crown Cut Veneer

FEATURE GUM

Replicates Spotted Gum and Blackbutt Feature Grade Veneer

WARM WALNUT

Replicates American Walnut Crown Cut Veneer

WATTLE

Replicates Blackwood Veneer

Warm Grey Timber Grain with Advanced UV Stability

NEVOTONE.

A high-quality, durable, and antimicrobial colour range — pre-finished and ready to fabricate.

NEVOTONE.

COOL WHITE

Durable Antimicrobial White Surface with Soft Stipple Texture

SURFACE TECHNOLOGY.

*Five precision layers, one superior surface.
Built for durability, sustainability, and
performance.*

Where melamine, foil laminates, and PVC thermofoil rely on thin films prone to UV damage and visible wear, NEVO offers a superior alternative. Advanced 3D olefin construction delivers hyperrealistic depth, scratch, stain, and chemical resistance with 2,000 hours of tested UV stability.

Free from PVC, BPA, chlorine, phthalates, formaldehyde, and endocrine-disrupting chemicals. Fully recyclable and ultra-low in VOCs, NEVO pre-finished surfaces enhance indoor air quality and support green building standards and wellness-focused design.

Pressed in Australia by Bord Products using low-VOC adhesives and clean manufacturing processes. PEFC-certified on request for responsible forestry and sustainable sourcing.

TECHNICAL DATA.

Applications

Ideal for high-traffic vertical applications including cabinetry, wall panelling, and joinery. Suitable for low-wear horizontal surfaces such as shelving and furniture tops.

Availability

Available pre-finished on E0 MDF, MR MDF & FR MDF (natural or black), Birch Plywood, or 1mm Laminate. Panel sizes from 2400x1200mm to 3600x1200mm (1mm Laminate at 3000x1200mm). 1-3 day lead time on double-sided 18mm MR MDF. PEFC-certified on request.

Edge Banding

Matching ABS edge banding available in 23mm and 42mm widths. Slight variations from panel surface may be visible due to material differences.

Fabrication

Cut with panel or table saws. Drill with standard wood or router bits.

Apply ABS edge banding with a hot-melt adhesive system or edge banding machine. Trim with routers using smooth, clean base plates, carbide-tipped bits with ball-bearing guide rolls. Finish edges with a smooth flat file.

Maintenance

Chemical-resistant and easy to clean. Use a soft cloth, warm water, and mild detergent. Test cleaning products on a small, unseen area.

Avoid acetone, trichloroethylene, harsh chemicals, abrasive cleaners, scouring pads, steel wool, and sandpaper.

Spill & Stain Prevention

Wipe spills immediately, especially from bleach, oven cleaners, ceramic cooktop cleaners, and harsh detergents.

Warranty

7-year guarantee against material and manufacturing defects. Discolouration from prolonged UV exposure is excluded. Full warranty at bord.com.au.
