Aftercare

The client should not get the hair wet or use traditional shampoo for a minimum of 72 hours. If the hair gets wet, instruct the client to blow-dry and lightly go over hair with a flat iron on low heat. The client should not use pins, clips, ponytail holders or glasses to hold or pull the hair back during this period. After the 72-hour period, regular use of Keratin Complex products will help to maintain the longevity of the treatment.
