

KERATINCOMPLEX®
Beautiful hair every day

Keratin-Enhanced Color
FOR STRONGER, HEALTHIER HAIR

KC Color Concentrates Series

KeraLuminous® Permanent Color and KeraBrilliance® Demi-Permanent Color Concentrates can be a powerful tool when added to any formula to intensify, neutralize, modify, or create special coloring effects with long-lasting results.

Why we love it:

- Advanced keratin and ceramide blend fortifies from within and reduces porosity
- Botanical PowerBlend moisturizes and nourishes leaving the hair beautifully conditioned and silky soft
- Intermixable with all KeraLuminous shades, High Lift Series, or KeraBrilliance
- Use on virgin or pre-lightened hair to create rich fashion tones or pure pastels
- Enhance, amplify, and strengthen the tonal reflection and luminous result of each shade when added into a color formula
