## Studio Italia

Est. 1989  
Melbourne, Australia

Prince Dining Room, St Kilda

Studio Italia is a contemporary lighting importer and distributor which provides the Australian Architecture and Design industry with the finest in decorative, architectural, and technical lighting.

Studio Italia has long been synonymous with the absolute best in Italian lighting design, supplying retailers, architects, and interior designers across Australia since founding in 1989. Our commitment to providing premium quality designer lighting and delivering an industry-leading service has allowed us to proudly and exclusively represent some of the world lighting manufacturers, including Vistosi, NEMO, Axolight, Rotaliana, and David Trubridge.

Our product selection is thoughtfully curated to exemplify bold design, originality, material excellence, and technical efficiency – aiming to excite and inspire architects, interior designers, and lighting professionals throughout the country. With an acute understanding of Australian standards and regulations, we supply only technically compliant and tested equipment, guaranteeing the best products to suit any application.

With over 30 years history in the Australian professional and design lighting space, Studio Italia continues to be driven by an ethos of quality, originality, innovation, sustainability, and service excellence.

# Vistosi®

Est. 1945  
Treviso, Italy

Vistosi offers a wide range of beautiful and delicate contemporary murano glass light fixtures. Established in 1945, the company is named after its founder Guglielmo Vistosi, whose family had long traditions in glass making dating back to the XVI century. From one generation to another, the family has developed its position and established its own brand in the world of Venetian artistic glass.

# CANGINI & TUCCI

Est. 1961  
Cesena, Italy

Master's of glass production, Cangini & Tucci perfected their technique over half a century, creating a wide range of lighting articles influenced by the great Venetian art. Unique in their approach, Cangini & Tucci's production method involves processing of a fine borosilicate glass blown on flame and shaped entirely by hand. Each piece by Cangini & Tucci is unique, authentic and Made in Italy.

# Rotaliana

Est. 1989

Trento, Italy

Rotaliana has been creating lighting since 1989 in the productive district of Mezzolombardo in Trentino. All lamps created by Rotaliana are the result of a rigorous dialogue with designers from a variety of backgrounds, both cultural (architects, designers and artists) and geographical (Italy, Japan, Korea and Sweden). They are born from the rich knowledge rooted in the territory, and from the company's strong international character, showing the world the history of "Made in Italy".

# david trubridge

Est. 1995  
Hastings, New Zealand

David Trubridge is a New Zealand based furniture and lighting designer recognised as a leader in environmentally responsible design. Established in 1995, David Trubridge Ltd has expanded from a small designer/maker business in Hastings NZ to a design and manufacturing company distributed across the globe. David's designs are born from earthly inspiration and have featured in countless international publications as instigators of the trend of 'raw sophistication'. A strong environmentally conscious philosophy drives every aspect of the business, from design and manufacturing to packaging and delivery. The company is a regular sponsor and participant of conservation and recovery initiatives.

# Studio Italia

## Outdoor & Technical Collection

The aim of the Studio Italia technical and architectural lighting collection is to provide Australian architects and designers with a strong foundation for product selection. Our established distribution networks and buying capacity enable us to supply premium quality technical lighting at a highly competitive price point with reliable lead times and after-sales support. Fittings within the collection are carefully selected based on three criteria: style, quality, and efficiency, with all products rigorously tested to Australian standards. All products are available in short and bulk quantities for residential and commercial projects of any size.
