What You Will Need:

- Coloured Paints - Specifically Orange and White
- Paint Brushes
- Wipes
- Colouring Pencils
- Googly Eyes (for added effect)
- Coloured Card
- Or just White Paper

Step By Step Guide:

1. Begin by painting your child's hand completely orange
2. Then you will need to wipe off two stripes and paint those white
3. Or you can leave a gap between the orange and paint two white stripes
4. Alternatively you can look at examples of fish on Google and paint your design to your own preference
5. Then, place your child's hand firmly down on the piece of paper and press for about 10 seconds
6. Lastly, draw in some eyes, trace around the white of the fish and add in some fun plants with the paint at the bottom of the page
