# Fun Animal Facts

Suitable For 3+ Years

Let's  
CREATE

# What You Will Need:

- Printer - with an adult supervision!

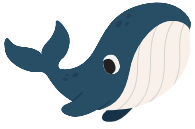

## Step By Step Guide:

1. Start by printing out the animal fact sheet below
2. Read off the facts one by one
3. Most importantly have fun by learning some new animal facts
4. Additional: Keep the print out sheet and stick it on your fridge or around your house for continuous learning!

You can tag us @jaquesoflondon on Instagram so we can see where you have placed your animal fact sheet!

Remember to have fun learning!

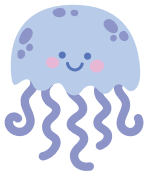

The blue whale can produce the loudest sound of any animal. At 188 decibels, the noise can be detected over 800 kilometres away.

A Cockroach's brain is in its body.

Sharks lay the biggest eggs in the world.

Giant Arctic jellyfish have tentacles that can reach over 36 metres in length.

The average housefly only lives for 2 or 3 weeks.

Fleas can jump 350 times its body length.

Crocodiles cannot stick their tongue out.

Slugs have 4 noses.

Butterflies can taste with their feet, using something called chemoreceptors that help them to identify plants.

Starfish do not have a brain.
