

# Congratulations on the purchase of your Kustom KUA10 !

Your KUA10 draws on decades of amp design and manufacturing experience at Kustom. This model was built from the ground up to offer world-class tone, useful features and reliable performance. Inside this manual, you'll find valuable information about the amps controls and specifications. Being familiar with its features ensures proper operation of the amplifier. We wish you many years of enjoyment with your Kustom amplifier.

## FEATURES

- Compact, portable Ukulele amplifier with shoulder strap
- Ukulele Transducer Pickup
- 10 Watts - 1 x 6" Kustom design speaker
- Guitar & Ukulele inputs
- Volume & Tone control
- Aux. input listen/jam along to music
- Headphone output for silent operation
- Operates on 9-12VDC adapter (included) or 6 - "AA" batteries (not included)

The Ukulele transducer pickup is simple to install to your instrument. Simply peel off the adhesive backing and mount the pickup to the face of your instrument. ( No special tools required ). Once installed you can amplify your Ukulele through the amplifier.

Battery Powered Guitar & Ukulele Amplifier

## Top Panel

- 1) Guitar Input: Use this 1/4" input to plug in your guitar.
- 2) Ukulele Input: Use this 1/8" jack to plug in your Ukulele.
- 3) Aux. Input: This is a 3.5mm stereo line input. It bypasses the tone controls and feeds straight into the power amplifier. Use the volume and tone controls on your external device to control the audio signal.
- 4) Tone: Set fully left to increase bass response. Set fully right to enhance treble notes. Set at 12 o'clock for a balanced tone.
- 5) Volume: Sets the overall volume of the amplifier.
- 6) Headphone: This is a 3.5mm stereo output jack. When used, it turns off the internal speaker. It combines all inputs from your guitar and Line In for silent practice.
