# How to colour in your Daffodils, Birth Flower for March, in 5 easy stages

castlearts.com #castlearts

## STAGE 1

We begin this Spring bouquet with the linework, adding gradual layers to build up colour and tone as we go.

## STAGE 2

First we add a colour base of yellows and golds to add tone to the petals with a little defining shade.

## STAGE 3

Next we build up the drawing with further layers, adding green to the stems, and applying darker tones to increase the density.

## STAGE 4

Now an all-over splash of colour and deepening shade to add some vitality to this pretty bouquet.

## STAGE 5

Nearly there! After some subtle blending and final details this trumpeting array of Spring Daffodils is ready to give out its joy.

# Birth Flower: February

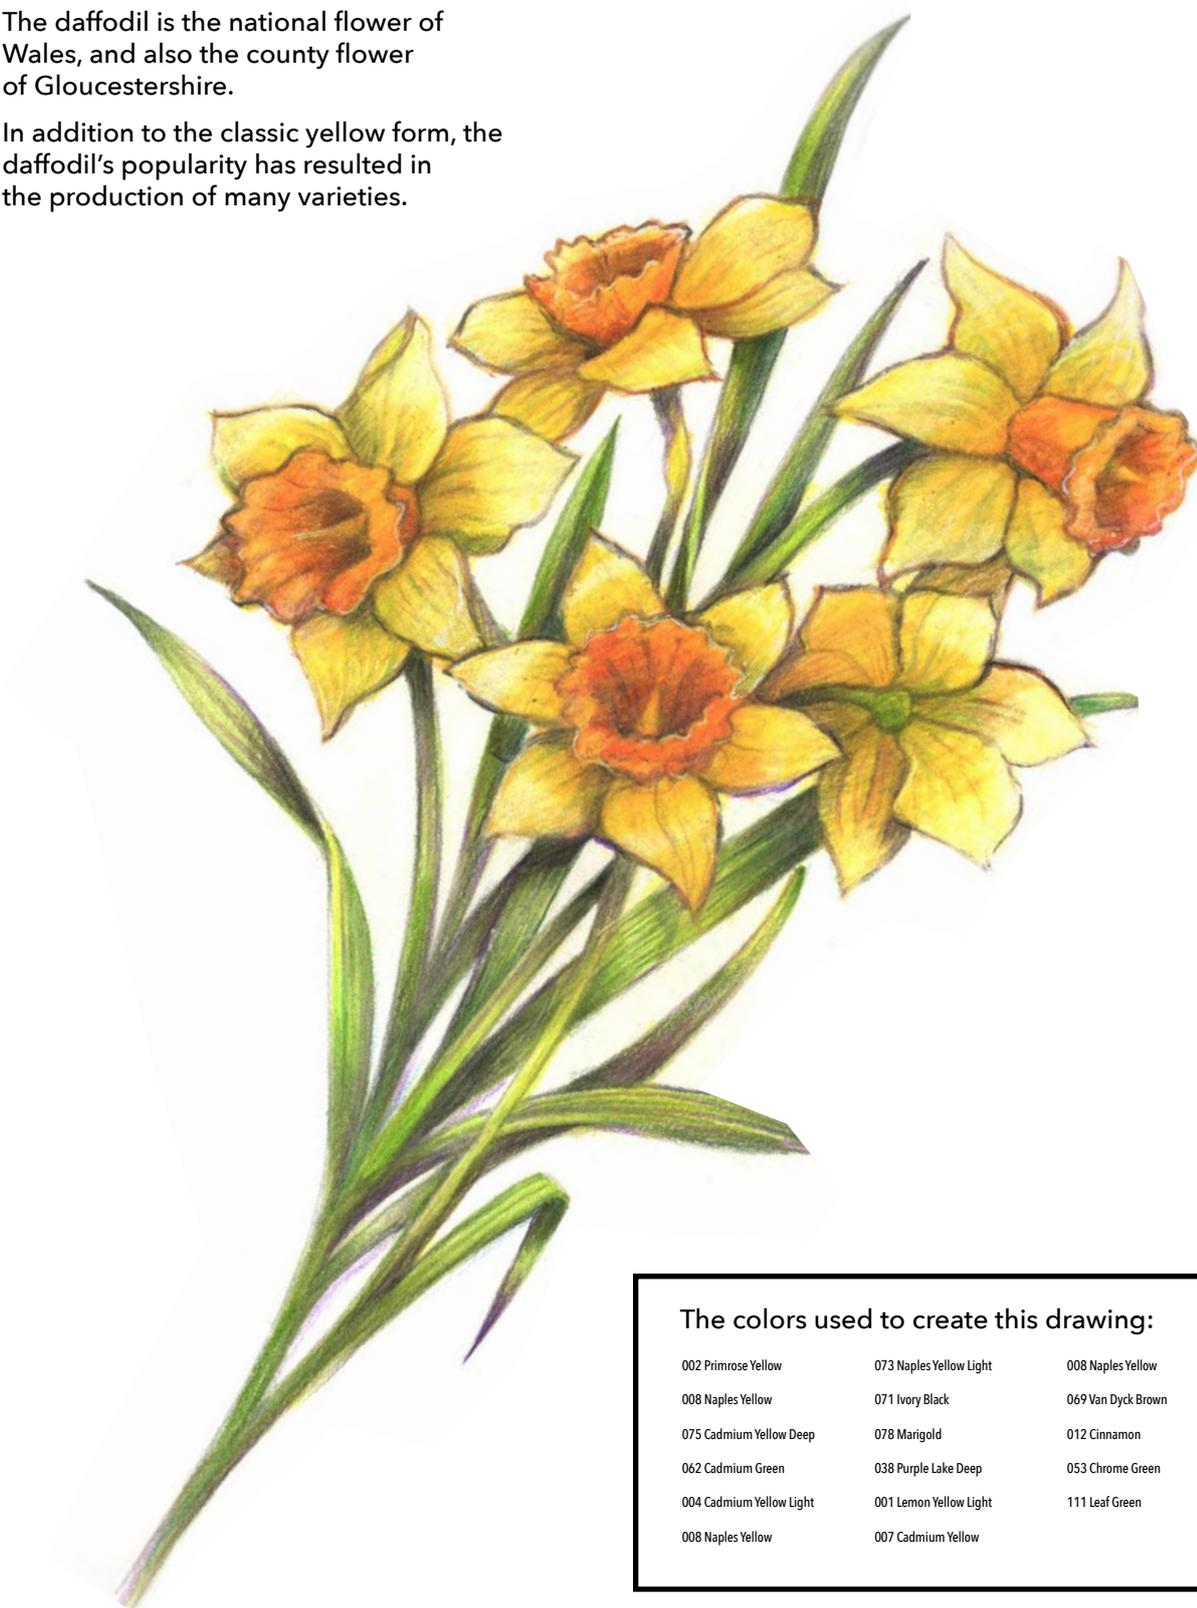

## Your Daffodils colour reference

Widely cultivated for their distinctive trumpetlike flowers, daffodils are native to northern Europe and are grown in temperate climates around the world.

The daffodil is the national flower of Wales, and also the county flower of Gloucestershire.

In addition to the classic yellow form, the daffodil's popularity has resulted in the production of many varieties.
