

WORLD
GEMOLOGICAL
INSTITUTE™

DESCRIPTION

ONE (1) FACETED GEMSTONE. SPECIES: NATURAL
CORUNDUM. VARIETY: YELLOW SAPPHIRE.

Center Stone
Shape And Cutting Style **Radiant Mixed Cut**
Carat Weight **2.10 carat**
Color Grade **Pale Yellow**
Clarity Grade **Eye Clean**

Comments
Measurements: 6.91 x 6.56 x 4.71mm
Heated.
Transparency: Transparent
Colour uniformity: Very good

WGI™ CERTIFICATE NUMBER

WGI™ Gemological Analysis is based on strict standards and internationally accepted grading techniques which the laboratories are committed to. Using professional equipment and terminology, this report represents a gemological opinion and does not serve in any case a guarantee or warranty. HPHT (high pressure high temperature) is a treatment to enhance the diamond's color. Clarity enhanced refers to laser drilling and / or fracture filling techniques to improve clarity of a diamond and its appearance. Weights and measurements are approximate. The mounting can limit the ability to see the characteristics and signs of treatment. The valuation refers to a recommended retail price (RRP).
