

**WORLD GEMOLOGICAL INSTITUTE™**

WGI™ CERTIFICATE NUMBER

WGI9634156326

2024-10-22

ONLINE VERIFICATION

www.wgi-global.com

**DESCRIPTION**

ONE (1) FACETED GEMSTONE. SPECIES: NATURAL CORUNDUM. VARIETY: YELLOW SAPPHIRE.

**Center Stone**

Shape And Cutting Style **Oval Mixed Cut**

Carat Weight **2.54 carat**

Color Grade **Yellow**

Clarity Grade **Lightly Included**

Cut Grade **N/A**

**Comments**

Measurements: 8.98 x 6.75 x 4.80mm

Indication of thermal enhancement

Colour uniformity: Very Good

Transparency: Transparent

Origin opinion: Sri Lanka (Ceylon)

WGI™ Gemological Analysis is based on strict standards and internationally accepted grading techniques which the laboratories are committed to. Using professional equipment and terminology, this report represents a gemological opinion and does not serve in any case a guarantee or warranty. HPHT (high pressure high temperature) is a treatment to enhance the diamond's color. Clarity enhanced refers to laser drilling and / or fracture filling techniques to improve clarity of a diamond and its appearance. Weights and measurements are approximate. The mounting can limit the ability to see the characteristics and signs of treatment. The valuation refers to a recommended retail price (RRP).
