# Coastal Shades

## Wall Tile

Crystalline water laps the ceramic surface, warming it with the setting sun. Coastal Shades has drawn its inspiration from the Mediterranean light, colors and sensations that only that unique nature can evoke.

URBAN  
COAST TILE

*\*Double fired tile refers to the two stage process that these tiles undergo. The first firing is of the body or bisque, and the second firing is done to apply the glaze. This process is used to achieve the rich and deep color tones unique to it. Please consult your setting material manufacturer for the appropriate adhesive, grout, and substrate prior to installation.*

\*Installation Notes : Coastal Shades can be used in showers with intermittent water however, the cracked glaze finish should be sealed. Soft joints at all adjoining surfaces are required per TCNA standards.
